

SCANIA MILLENIUM COLLECTION

To commemorate the turn of the century, Scania Bus* commissioned a pan-European collection of pictures.

33,000 images were captured in 22 countries.

The top 3,000 became the Scania International Picture Library. Further editing to 300 created the Scania Millennium Collection.

These images present the Scania Millennium Collection in a series of layouts used for Scania's year 2000 calendar and posters. They are offered as limited-edition framed prints and giclées. The editions have four size categories. The "S" (Special-size) category is for sizes you specify.

*Scania is one of Europe's leading bus and truck manufacturers.
